

UAS ADMINISTRATION - POSITION APPLICATION PACKAGE

About UAS

United Africa States (UAS) was founded and formed by Dr. Kidane Desta. Unlike the old African government systems which usually exercise power over citizens' needs, Dr. Kidane introduced an innovative system, called Informatic Institutional Framework, to make the administration modernized and digitalized. Its purpose is to form an independent, innovative, modern United Africa States with an institutional administration structure framework to serve citizens' basic needs — not political exercises; to protect human rights and land resources; to secure borders, to solve disputes; to ensure independent island territories; to build solid economy and feasible sustainable development. UAS uses a digital application package over voting and nomination for its administration job positions. UAS Administration would like to announce administration positions in its institutional and divisional administration programs. Interested applicants (African citizen) are invited to submit their complete application file.

Before you fill out this application form, please carefully read the following information. Only complete applications will be taken into consideration. All files will be reviewed by the UAS administration team committee. Treating an application file takes about two weeks. Letter of acceptance will be sent two weeks after the application package deadline. Please send us officially authenticated copies of your original degree and transcripts. Please submit this application package along with the required documents before February 13, 2017.

Educational Background

Please provide us with a list of Colleges/ Universities/ Institutions attended (name, duration, and studied programs)

Special Training and Skills

Subjects of special study/ research work or special training/ skills. These may also include computing skills and knowledge of foreign languages.

Relevant Experience

The aim of UAS administration's application package is to select highly committed young people, regardless of their previous experiences. The advantage of using this application over election/ voting/ nomination is to overcoming corruption, and to fill the gab between an internal commitment and external popularity factors.

Passion, intimacy, strong commitment, creativity, and relevance transferable skills. Don't bother walking through your entire career path; you don't have to list each and every job (full-time, part-time or vacation work, paid or unpaid) you have ever done, you can summarize them.

Challenges and Possible Solutions

Describe a situation where you had work in team, a time when you were faced with a challenge situation, and how you responded to it (teamwork, cooperation, planning, time management, flexibility, problem-solving, and decision-making)

What are the five major society problems you are planing to solve? What are the possible reasons behind these problems?

What policy/ strategy options are you considering to solve the society problems you have mentioned above? What is the best option from those you have considered? How will you implement and evaluate your chosen option?

What are the major problems with the existing governmental systems in Africa? Discuss the association between lack of good government systems and poverty/ unemployment rate/ unstable politics/ corruption crisis.

Additional Information

You could use it to cover anything which you have not had room to include in previous sections. Reason why you have chosen to apply to the UAS administration position. You can also use file upload button to upload your resume/ short motivation letter/ persona life stories/ the Africa people’s life stories etc.

NB You must attached official authenticated degree and transcript. Also a scanned passport/ ID card.
